

Awais Arshad

Phone: +92-3051038188

Email: awaisarshad3839@gmail.com

Nationality: Pakistani

Born: 08 April 2002

Summary

Results-driven Data Science graduate skilled in Python, Machine Learning, Exploratory Data Analysis (EDA), Feature Engineering, and Agentic AI. Completed a Data Science internship at WorkDesk VA, applying EDA, feature engineering, and machine learning techniques to support data-driven decision-making. Built advanced AI projects, including an autonomous LLM-based multi-agent scientific experimentation system and PitchDeck, a full-stack multimodal AI pitch coaching platform (Final Year Project).

Online Profile

LinkedIn ■ <https://www.linkedin.com/in/awais-arshad-739969322/?isSelfProfile=true/>

GitHub ■ <https://github.com/AwaisArshad1989>

Education

- 2022–2026 ■ **BS (Data Science) — National University of Computer and Emerging Sciences | Islamabad, Pakistan.**
Major Subjects: *Agentic AI, Natural Language Processing, Deep Learning, MLOps, and Digital Image Processing (DIP).*
- 2019–2021 ■ **Intermediate — Cadet College Wana South Waziristan Agency | Khyber Pakhtunkhwa (KPK), Pakistan**
with 1st Division.
Major Subjects: *Mathematics, Physics, Chemistry, English.*
- 2017–2019 ■ **Matriculation (10th grade) — Cadet College Wana South Waziristan Agency | Khyber Pakhtunkhwa (KPK), Pakistan**
with 1st Division.
Major Subjects: *Mathematics, Physics, Chemistry, Biology, English.*

Publications Under Process

- **Awais Arshad**, Dr. Usama Imtiaz and Dr. Faisal Mehmood. “MultiSocial++: An Efficiency-Oriented Pipeline for Multilingual Machine-Generated Text Detection on Social Media” – Department of Artificial Intelligence and Data Science National University of Computer and Emerging Sciences Islamabad, Pakistan. **Under Review**
- **Awais Arshad**, Dr. Muhammad Mateen Yaqoob and Dr. Faisal Mehmood. “HDA-ATS: Hierarchical Deep Autoencoder with Adaptive Trust Scoring for Defending Against Label Flipping Attacks in Federated Learning” – Department of Artificial Intelligence and Data Science National University of Computer and Emerging Sciences Islamabad, Pakistan. **Under Review**

Projects

- PitchDeck – Multimodal AI Pitch Coaching System (FYP)** *React, Flask, Python*
 - Developed a full-stack AI platform for startup pitch evaluation
 - Integrated MediaPipe, Distil-Whisper, and Groq (Llama 3.3) for multimodal analysis
 - Generated real-time feedback on body language, eye contact, fluency, and delivery
- Autonomous LLM Multi-Agent Scientific Experimentation System** *Python, Ollama, Llama 3*
 - Developed an autonomous multi-agent AI system for scientific experimentation
 - Automated research generation, Python code execution, debugging, and report creation
 - Implemented debugging and verification agents to improve experiment reliability
- House Price Prediction App** *Python, Flask*
 - Developed a web-based machine learning application for house price prediction

- Built the backend with Flask and deployed a regression model for real-time predictions
- Applied data preprocessing, EDA, and feature engineering using Pandas and Scikit-learn

Songs Recommendation System

Python

- Developed a machine learning recommendation system for personalized song suggestions
- Implemented cosine similarity and Pandas for music recommendation
- Applied data preprocessing and collaborative filtering techniques

Cafe Management System

C++

- Developed an object-oriented application to manage cafe operations
- Implemented features for order processing, billing, and inventory management

Work Experience

Jun 2025 – Dec 2025 ■ **Data Scientist:** 6 month working as Data Scientist intern in WorkDesk VA Lahore, Pakistan.

Key Contributions

Performed Exploratory Data Analysis (EDA) using Pandas, Matplotlib, and Seaborn to identify trends, patterns, and outliers in training datasets.

Applied feature engineering techniques to preprocess data and improve machine learning model performance.

Implemented and evaluated Logistic Regression and Decision Tree models using cross-validation and hyperparameter tuning.

Trained Artificial Neural Networks (ANN), Convolutional Neural Networks (CNN), and Recurrent Neural Networks (RNN) as part of hands-on learning assignments.

Evaluated model performance using accuracy, precision, recall, F1-score, and confusion matrices; applied regularization and dropout to reduce overfitting.

Awards / Achievements

- Certification of completion Data Science Internship.
- Merit Scholarship throughout Matriculation and Intermediate degree.
- Managed IEEE-WIE workshop held at NUCES-FAST Islamabad, 2025.
- Winner Essay Writing Competition 2019 held at Cadet College Wana.

Skills

Languages ■ Strong reading, writing and speaking competencies for English, Urdu.

Coding ■ Python, C/C++, JavaScript

Software Packages & ■ Git, GitHub, AWS, Azure

Cloud

Web Dev ■ HTML, CSS, React, Flask, SQL

ML & Data Science ■ Expertise in Machine Learning, Deep Learning and Natural Language Processing; experience with TensorFlow, PyTorch, Scikit-learn, and data-driven modeling techniques.

Professional Skills

- Proactive approach and initiative
- Proficient in the use of new media such as the internet to promote interactive learning
- Strong programming and technical implementation skills
- Strong collaboration skills in multicultural environments
- Excellent interpersonal and communication skills
- Good performer under pressure and deadlines
- Flexible in working with teams as team member and leader
- Strong analytical and problem-solving abilities
- Excellent research and critical thinking skills
- Cool minded and composed

Research Interest

- Deep Learning

- Computer Vision
- Natural Language Processing
- Agentic Ai
- Large Language Models
